HOLDS TO HIS ESTIMATE.

Little Rock, Oct. 21.—Tax Commissioner Smith is still of the opinion that the reduction in the aggregate assessments of the state will not exceed \$25,000,000 this year. There are still eight counties to be reported and the aggregate decrease continues well within that figure.

ORDERS NEW AUTO TAGS.

Little Rock, Oct. 21.—The new automobile license tags for 1922 have been ordered by the state highway commissioner. The first order is for 80,000 and this number will probably be increased before the year is out. The new tag is a bright yellow background with a black figure.

## THE WHITE GRAND

HOME OF THE PIPE ORGAN.

TODAY—  
ELAINE HAMMERSTEIN, in "REMORSELESS LOVE"  
The Star Without a Failure. A Ralph Inch Production.  
ALSO HAL ROACH COMEDY

SATURDAY—  
JUSTINE JOHNSTONE, in "SHELTERED DAUGHTERS"  
Charlie Chaplin Comedy.

## Racine Tires

Are not sold to manufacturers as original equipment on cars. Their popularity is purely a matter of owners choice.

Unless Racine Tires made good in a big way their popularity would not last.

## ALL UNIONS, ROADS CITED; MAY INVOKE WAR POWERS

(By the Associated Press)

Chicago, Oct. 21.—The federal railroad labor board today cited the "big four" brotherhoods, the switchmen's union and all railroads affected by the July wage reduction order to appear before it next Wednesday, to determine whether they have or are violating the reduction order.

Members of the federal board declined to say whether their action was taken upon instructions transmitted over long distance telephone from Washington.

### CABINET ADVISES WAR POWER INVOKED.

(By the Associated Press)

Washington, Oct. 21.—Members of the president's official cabinet in session today to consider the strike situation advised President Harding to invoke his war time authority to prevent interference with the movement of necessities. That this advice was given by some members of the cabinet became known after the conference was ended. Following out their plan, the president would exercise authority conferred under the Lever and other war time enactments to compel brotherhood and union members to remain at their posts.

### LEE SAYS POW WOW A FAILURE.

(By the Associated Press)

Cleveland, Oct. 21.—W. G. Lee, president of the trainmen, announced upon his return from Chicago today that the strike situation is absolutely unchanged. Mr. Lee attended the conference between the brotherhoods and the federal board.

### LABOR PUSHES PLANS FOR STRIKE.

(By the Associated Press)

Chicago, Oct. 21.—The federal board having admittedly failed in its attempt to prevent the threatened strike through conferences with brotherhood and union heads, labor chiefs today pushed their plans for a general walk out beginning October 30.

Executives of railroads affected are working equally as hard with measures to combat effects of the strike order. Executives of western roads are meeting in Chicago today for study of plans by which passenger, mail and milk trains may be kept in operation, and those of southwestern roads are devising similar plans at St. Louis.

Before leaving for Cleveland, heads of the unions declared that the federal board presented "nothing concrete" at the conference.

### BOARD'S OVERTURES REJECTED.

(By the Associated Press)

Chicago, Oct. 21.—Lack of provisions in the organic laws of the brotherhoods and unions for suspending a strike once it has been ordered, made it impossible for the brotherhoods to accept the plan submitted by the federal board at two conferences yesterday. This statement was made today in union circles.

As now understood, the board proposed that railroads make reductions in their freight rates corresponding to the wage reductions made effective July 1, and that roads refrain from asking further reductions until the last cut has been given the general public in the form of lower freight and passenger rates. Finally, the brotherhoods and unions were called upon to suspend the strike order while this agreement was being placed in operation.

Chiefs of the "big five" said that no arrangements have been made for recalling the strike order and any settlement must come before October 30 or the strike will go automatically into effect.

### TEXAS TRAIN MEN OUT WEEK EARLY.

(By the Associated Press)

San Antonio, Tex., Oct. 21.—Six hundred members of train men's brotherhood, employed on the International & Great Northern, today completed arrangements for their strike beginning tomorrow, one week earlier than the date of the general strike. Their vote favored the earlier strike date.

## ENVOY HOLDS JAPS MENACE WORLD PEACE

(By the Associated Press)

Honolulu, Oct. 21.—Dr. Chang Yu Chan, chief counsel for the Chinese foreign office at Peking, here en route to Washington for the disarmament conference, declared in an interview today that the Japanese empire through its policies is fast placing the peace of the Far East and the entire world in jeopardy.

Dr. Chang is accompanied by 98 consulting delegates, who will assist the Chinese delegation at the conference.

## HOTELS GIVEN MOST DRASTIC PROHI ORDERS

(By the Associated Press)

New Orleans, Oct. 21.—New Orleans hotels and restaurants were last night served the most drastic ruling yet promulgated by the national prohibition commissioner.

Local hotels and restaurants were warned that violations of the prohibition act would be followed by the closing of the premises for one year.

John D. Rockefeller has transferred his fortune to his family, to obviate paying death duties.

## FILE ESTIMATES ON ROAD TO PALARM

Little Rock, Oct. 21.—Tentative assessments and estimates of probable cost of paving Prospect avenue and the Pulaski county section of the Conway road between Levy and Palarm will be presented to the commissioners of district No. 10 by Don McRae engineer for the district, at a meeting to be held at 3 o'clock this afternoon at the Bankers' Trust Company.

Should the estimates be accepted it is probable that immediate plans will be made for completing assessments and forwarding construction in the two projects. All action by the board has been suspended recently pending completion of the engineer's report. The commissioners of the district are Roy L. Thompson, B. Bodemann, Gus Fulk, C. S. McCain and J. R. Alexander.
